

ifoammini

Low pressure rinsing and alkaline foam generating equipment

Alkaline foam generator for projection on surfaces with greasy dirt, the foam will It adheres, achieving the necessary permanence effect for the process of molecular dissolution of the fat, then activating the action of rinsing in low pressure.

APPLICATIONS ▼

Hood

Extractor

THE EQUIPMENT INCLUDES ▼

Low pressure foam injection and rinsing nozzle 90 cm
COD. AC3303302

HOSE High pressure liquid connection.
COD. AC3303203

HOSE High pressure liquid connection.
COD. AC3303211

OPTIONALS ACCESORIES ▼

HOSE REEL FOR MAINS WATER. 15 m
COD. HE7300200

MEMBRANE AIR COMPRESSOR. AR10
220 V-50 Hz COD.CO3330412
110 V-60 Hz COD. CO3330410

CONSUMABLES ▼

COMEGRAS
Ultra-concentrated degreaser.
Packages 10 kg
Container COD. PQ8100122

ZEROGRAS
Concentrated degreaser.
Packages 10 kg
Container COD. PQ8100127

TECHNICAL FEATURES

Electric power supply	220 V / 50Hz 110 V / 60 Hz
Hydraulic supply	Min. pressure 2 bar - 29 psi
Compressed air supply	Min. 80l/min 5bar 2,83cfm 72,52 psi
Pump power	120 W
Max. output pressure	6,9 bar / 100 psi
Control	Three-position switch
Connections	Conectores rápidos
Structure material	Stainless steel
Dimensions [L x W x H]	390 x 381 x 915 mm 15 x 15 x 36 inches
Unloaded weight	18,5 kg / 40.8 lb

ACTIVE FOAM GENERATION AND RINSING SYSTEMS
