

multipro

Extraction duct cleaning equipment

It is the most technologically advanced brushing equipment, plus the most effective and efficient solution for extraction duct cleaning services in restaurants and collective kitchens.

Why Tegras Multipro?

Because its injection system projects a dense foam that adheres to the inside of the walls of the ducts, dissolving the fat.- Powerful air motor [11.6 nm max. torque] necessary to remove all types of fat, completely built in stainless steel for greater durability.- 30 meters of semi-rigid hose that will allow you work vertically [even from top to bottom], horizontally and make 90° elbows.
